Yalonda Ivers, M.S., M.Ed. - Assistant Principal/Counselor

To whom it may concern:

On behalf of Bells High School, I want to express our appreciation for Wade White and the entire "Measured by Character" staff. From set up to clean up, we thoroughly enjoyed this program. As principal, I have been impressed with the communication, organization, and professionalism throughout the entire process. Our students were moved by the "Measured by Character" message, and it is having a positive impact on our campus.

I will recommend this program to all other principals I interact with, and I am glad that your campus has the opportunity to be a part of it today. I am confident that if you give Wade your attention, you too will be blessed with an engaging and powerful assembly just as we were. Hopefully you can take the message taught today and use it to impact your school and town in a positive way.

Our school implemented some of the ideas that originated from "Measured by Character." We hung the Pledge Banner in our High School commons as a reminder to students and teachers, and each day we are adding Random-Acts-of-Kindness cards to the RAK provided by Wade and his team. We also give weekly reminders of the key points from the message during our morning announcements. I am sure the leaders in your school will find ways to spread and build on the message you are about to hear. Bells High School will also be participating in the "pay it forward" idea, as we are happy to help "Measured by Character" continue to spread their message to other schools.

Thank you for your time, and best wishes from the Panthers.

Sincerely,

Josh Weger  
BHS Principal
