To Whom It May Concern:

Last week our students at Lake View High School in San Angelo had a unique opportunity to participate in the program, "Measured by Character". Through the efforts of Wade White and his team, our students were touched by the presentation coming to them in a week of grief, sadness, and discord. The students were attentive and engaged by the powerful words of Mr. White and the music videos supporting his message. It was a timely and well-received program that I would highly recommend to any school to promote positive relationships and improve the overall school environment.

Our students made a commitment to improve Lake View High School by signing the school banner and proudly wearing their "Measured by Character" bracelets. We have already started witnessing Random Acts of Kindness and our students have used the RAK tank to recognize their peers and staff members.

Whether hearing the real, raw and relevant message of Wade White, watching and listening to the powerful videos supporting the storyline and bulleted points of the presentation, or engaging students throughout the program, the "Measured by Character" team displays utmost dedication, commitment and superior effort in reaching students.

We are proud to show our support for this program and know that other schools will be deeply impacted by its powerful and timely message! We are all truly shaping our own legacies, continually being "Measured by Character".

Respectfully,

Diana Treadaway  
Professional School Counselor
