To Whom It May Concern:

I am writing to recommend the Measured by Character Program for your school. Earlier this school year, Whitesboro ISD brought the MBC program to our district to add an extra “pop” to our PBIS program that we’ve initiated this year. It did just that.

The “tenants” of MBC tie directly to our system and truly focuses students on the impact that their lives do, and will, have. The brief 2 hour program captured the attention of approximately 850 students for its entirety and set an emotional tone that allows students to not only see the value of their life, but the lives of those that are exposed to them, on a daily basis. It is truly a unique experience.

MBC has no ulterior motive. It is a program that is student focused from beginning to end and does not attempt to pressure students into areas that could create conflict, or with older kids, seem “gimmicky.” MBC is thought provoking and emotional and will leave your students, and staff, with perhaps a greater sense of their belonging and purpose amongst their peers and with their students.

For all these things, I have no reservations in recommending MBC for your district. Best of luck and have a GREAT School Year!

**Ryan Harper**  
Superintendent, Whitesboro ISD
