To Whom It May Concern,

Our students were very touched by the personal stories presented from Wade White in his Measured By Character program. Hearing about the highs and lows from the family tragedy he encountered opened the eyes of many students regarding the impact they can leave on peers in their daily dealings. Wade is a commanding speaker who genuinely connects with students and can engage them through his voice, demeanor, and proximity.

This special appearance allowed our students to have candid discussions with our teachers and our hope is that these discussions carry on with our students' families. After the assembly, there were students who made comments such as, "I really feel like I'm going downhill. I need to get my priorities straight", "seeing our school come together is truly beautiful", and "today changed me".

Please do not hesitate to contact me if you have any questions.

Very sincerely,

Dr. Shannon M. Saylor, Principal
Aubrey High School
