To Whom It May Concern,

The Youth Challenge program is a program geared towards turning around the lives of sixteen to eighteen year old at-risk youth. Some of these young adults have made poor decisions, are facing consequences for previous actions, or simply need a turn in the right direction in life. There are currently three locations in the state of Louisiana: Camp Minden; which is in the northern part of the state; Camp Beauregard towards the middle part; and Gillis Long towards the New Orleans area.

The staff at the Youth Challenge Program in Camp Minden strives to promote teamwork, leadership, responsibility and self-growth. To achieve these goals, we do different activities such as community service, teamwork activities, classes, and guest speakers. Our guest speakers serve as individuals from the outside world who come in and give their perspective to the students.

Recently, we asked the staff at Measured by Character to serve as a guest speaker for our students and we thoroughly enjoyed the experience. Mr. Wade White and his staff walked in with an attitude that they would reach each student. The presentation started out huge with a video presentation, which is what got the students' attention, then later Mr. White gave his personal testimony. His personal testimony really drew the students in and got them engaged. No matter what tribulation our students were facing, they left the presentation with tears streaming down their face because they finally saw their potential.
