

SPRINGER PUBLIC SCHOOLS

Office of the Superintendent

I am writing to express our profound appreciation for the impactful presentation delivered by Wade White of Measured by Character at Springer Public Schools. Mr. White shared the deeply moving and inspiring story of his son, whose life was tragically cut short in an automobile accident.

Mr. White's presentation was a powerful blend of heartbreak and inspiration. He masterfully conveyed the essence of his son's life, highlighting his unwavering commitment to kindness and service. This message resonated deeply with our students, leading to a truly remarkable and spontaneous demonstration of unity and commitment. Following the presentation, our students collectively gathered in the gymnasium, where they made a heartfelt pledge to strive to be better individuals.

The impact of Mr. White's words extended even further, as many of these students later convened at a local church, choosing to dedicate their lives to God. This profound spiritual awakening among our students is a testament to the powerful and transformative nature of Mr. White's message.

We are incredibly grateful to Wade White and Measured by Character for bringing such a vital and life-changing message to our school community. His presentation has left an indelible mark on our students, fostering a renewed sense of purpose, empathy, and a desire to live lives of positive impact.

Thank you once again for this invaluable experience.

Sincerely,

Scott Webb
